Z127

DIMENSIONS: 41,7X100X180 **MATERIAL:** ABS

COLORS: BLACK, LIGHT GREY, BRIGHT WHITE

PRICE: 16,97 ZŁ/GROSS (PRICE FOR THE VERSION:
BRIGHT WHITE, PC, WITH SEAL, ABS)

Hermetic enclosure Z127 is intended, among others, for devices using displays or membrane keyboards. The enclosure can be hung on the wall; on the inside it is furnished with bars on both halves for mounting a PCB and a display. The working surface angle, on which a display or keyboard can be placed, is 9 degrees, and the working surface is 140x60 mm in size and it provides the possibility to employ a standard 3.5 inch display.

Z128

DIMENSIONS: 105(131,3)X70X40 **MATERIAL:** ABS, PC
COLOR: LIGHT GREY **PRICE:** 11,69 ZŁ/GROSS
(PRICE FOR THE VERSION: LIGHT GREY, PC, WITHOUT MOUNTING EARS,
WITH SEAL, BRASS SLEEVE PACKING)

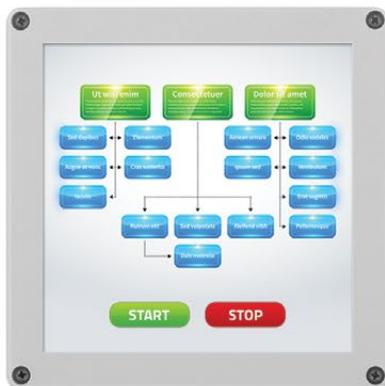

Hermetic enclosure Z128 is suitable for all equipment where it is necessary to be hermetically sealed. The enclosure is also available in a variant with mounting eyes, which allows installation of devices in difficult situations without the need to remove the cover. Versions with ABS and PC are available. The cover with a polyurethane seal and a recess for a keypad or a sticker can be made of transparent polycarbonate. Both parts of the enclosure are fastened with captive M3 bolts.

ADVANTAGES OF POLYCARBONATE:

- Good mechanical strength
- Striking smooth and more lustrous surface
- High transparency in a transparent version
- Low weight
- Good chemical resistance
- Very good insulating properties
- Wide range of working temperatures
- Self-extinguishing material
- Easy machining
- Good UV resistance
- Relatively inexpensive to use in difficult work environments
