NEW

ZP WATERPROOFER SERIES

HERMETIC ENCLOSURES

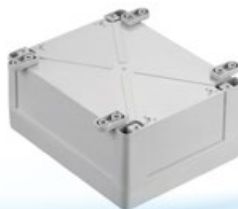

ZP240.190.105 WITH ACCESSORIES

ZP240.190.105 enclosures are designed for all devices that require hermetic enclosure. Available in ABS and PC versions. The cover with an indentation for a keypad or sticker can be made of transparent polycarbonate. Both parts of the enclosure are screwed with captive M3 screws. Mounting posts allow for sleeve installation without broaching.

ACCESSORIES - MOUNTING BRACKETS*

Brackets allow to attach the device to the wall without opening the cover. This is useful in tough conditions (e.g. tropical climate), or with a warranty seal on the casing.

ACCESSORIES - HINGES*

Equipped with a lock that keeps the cover open if needed. The lock is optional.

* The above accessories are optional.
